PROJECTS

• Yelp Camp (Full Stack Web Development)

- Implementation of CRUD functionality for individual components
- Full implementation of user authentication and authorization
- Development of frontend UI and backend server with client and server side validations

• Sorting Visualizer (Algorithms)

- Enables users to visualize various array sorting algorithms and how they work (Merge, quicksort, bubble, heap sort)
- Use of react for frontend rendering based on state changes

• Meso Coin (Solidity/ Blockchain)

- Creation of BSC-20 standard contract token using solidity
- Exposure to blockchain backend

EDUCATION

• Information Systems Management (Major) Business Analytics (Concentration)

MCGILL UNIVERSITY

Sept. 2015 - April 2019

TECHNICAL SKILLS

JavaScript

Object-Oriented Programming

NoSQL

Python
